- The wagons are intended for goods transport that requires protection against the weather conditions
- The wagons are convenient for goods transit of pallets, loading units and part-loads consignment (pack, bundles, casters, barrels, boxes, drinkables, goods in sacks etc.) It is possible to fasten down the cargo by fasten staples located in the deck or in all forefronts or in the sliding interior partition walls. The fasten staples enable to fix the good in the wagon optimally. The deck has anti-slip adaptation.
