

Himrrs / Hillmrrs AAE

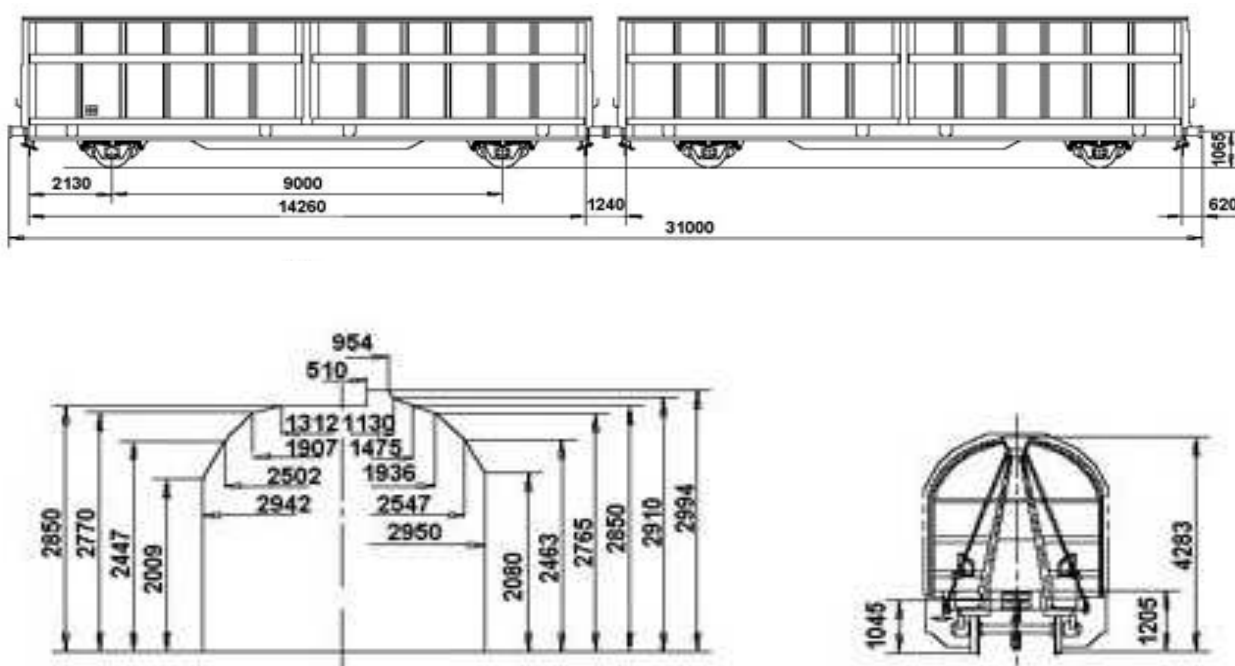

- multi axles large-capacity goods van with aluminium sliding sideward walls
- multi axles large-capacity goods van with aluminium sliding sideward walls and sliding interior partition walls

	Himrrs	Hillmrrs
Unladen weight	30 000 kg	30 500 kg
Loading capacity	2x 115,6 m3	2 x 114,8 m3
Load surface area	2x 42,0 m2	2 x 41,8 m2
Loading length	2 x 14 236 mm	2 x 14 136 mm
Loading width	2 950 mm	2 950 mm
Loading capacity	80 pallets (1200 * 800 mm)	80 pallets (1200 * 800 mm)
Length over buffers	31 000 mm	31 000 mm
Max speed	100 km/h	100 km/h
Min. radius of the arc	150 m	150 m
Height of floor	1 205 mm	1 205 mm
Sliding interior walls	-	2 x 1

- Two-parts wagons with 4 aluminium sliding sideward walls on each side with large loading capacity
- The wagons are intended for goods transport that requires protection against the weather conditions
- The sliding interior partition walls optimize the cargo space
- The wagons are convenient for goods transit of pallets or part-loads consignment, which man does not recommend (by technical and economic aspect) to transport using normal wagons

Technical layout and parameters
